

Step By Step Guide to Laying Artificial Grass:

STEP 1: PREPARING THE BASE

Remove existing top soil & natural grasses using a shovel & level the base as much as possible, try not to loosen the compacted soil. We recommend as a first stage of your base, to apply 30-100mm of Road Base (25mm granule) and compact to approx..95%. (Road base quantity varies on designed finishing level)

Top the base with 50mm of Blue Metal Dust over the entire areas & roll with compaction roller. This should leave the base level & compact smooth enough to lay your synthetic grass. To ensure you have a great looking installation, make sure you have a perfect base with adequate run off.

Note: You can install indoors or outdoors & over any smooth surface including concretes, brocks and paving. The surface that your wish to be covered should be swept, dry & clean and any cracks or grooves should be repaired before installation of Sydney Synthetic Grass Products.

STEP 2: EDGING, CUTTING & GLUING

Create a small trench around the edges approximately 5cm deep to tuck the synthetic grass into.

Lay your synthetic grass as it is to be installed. Fold up edges & cut from the back removing the salvage edge & stitch with your Stanley knife. Note: Go to salvage edge & stitch.

Place specialized joining tape underneath the seams which are to be joined. Spread the adhesive over the tape approximately 3-5mm thick using Notch Trowel.

Carefully lay one side of the grass down & then the other butting the two together. Apply pressure to the seam & work out any bubbles with a roller.

STEP 3: SANDING

You should now have all the grass fully laid with seams completed and dried. For the final step, brush the grass up with a stiff broom and using a spreader to spread in approximately 15mm sand evenly over the entire area. Note: To see the recommended sand, refer to the below sand qty.

Installation Tools Required:

- ◇ Tape Measure
- ◇ Chalk Line
- ◇ Stanley Knife
- ◇ Metal Straight edge
- ◇ Adhesive Spreader (3-5mm Notch Trowel)
- ◇ Synthetic adhesive –Glue
- ◇ Broom (Stiff Bristled)
- ◇ Sand Spreader
- ◇ Blower
- ◇ Rake (To stand grass up)
